ADDITIONAL INFORMATION

Personal Statement I am a highly motivated individual who has overcome significant personal challenges, including addiction recovery and the loss of my parents in 2019. These experiences have shaped my commitment to helping others and finding purpose through technology. With a profound interest in agritech, I aim to develop innovative, affordable solutions that support farmers in addressing climate change, water scarcity, and pest infestations. I embarked on learning to code as the foundation for achieving this vision, leveraging my diverse skills and knowledge to create impactful change in sustainable farming practices.

ABOUT ME

Dynamic Business Consultant with a proven track record, specializing in performance improvement and operations management. Expert in developing strategic plans that enhance revenue generation and streamline processes. Strong relationship builder with exceptional customer service skills, driving successful partnerships and client satisfaction. Committed to delivering impactful results in fast-paced environments.

Developed skills in fast-paced consulting environment, focusing on strategic analysis and problem-solving. Excel in project management and stakeholder communication, ensuring successful implementation of business solutions. Seeking to transition into new field where these transferable skills can drive impactful results.

WORK EXPERIENCE

BUSINESS CONSULTANT

Self Employed (2021-Present)

- Evaluated existing business models, identifying areas of improvement to increase revenue generation potential.
- Developed complete business plans and operational strategies for new and existing business.
- Established and maintained relationships with key stakeholders for growth opportunities and successful partnerships.
- Delivered successful projects within tight deadlines, ensuring consistent client satisfaction and timely project completion.
- Identified growth opportunities for clients by conducting thorough financial and risk assessments.
- Led restructuring of organization internal processes, resulting in improved performance.

FARM MANAGER

Private farms (2021-2021)

- Worked closely with employees to improve practices, techniques and safety choices, optimizing performance, and minimizing waste.
- Managed farm staff efficiently, providing training and guidance for optimal performance.
- Established strong relationships with suppliers to ensure a consistent supply of necessary materials at competitive prices.
- Maintained a safe working environment by enforcing safety protocols and conducting regular inspections of facilities and equipment.
- Improved animal health through regular monitoring, vaccinations, and timely veterinary consultations.
- Completed structural inspections to determine maintenance requirements and organize repairs.
- Developed advanced understanding of farm operations, purchasing needs, and labor requirements.
